Government of India
Ministry of Women and Child Development
(ICDS M & E Unit)

First Floor, Janpath Hotel
Janpath, New Delhi 110 001

Dated: 14th February 2013

Director (ICDS)

Deptt. of Women and Child Development
Administration of Daman & Diu
Daman – 396 220

Subject: Revised Management Information System (MIS) in ICDS Scheme – Release of Print-Ready Formats of AWC Registers/Reports and Instructions for Printing - Regarding

Sir,

I am directed to refer to this Ministry's **28th March 2012** guidelines regarding introduction and roll-out of the Revised Management Information System (MIS) in ICDS Programme (*copy attached*) and to enclose the documents as listed in *Annex-1* for your information and necessary actions. As mentioned in the aforesaid guidelines, and as listed in the Annex, *print-ready soft version¹ of revised AWC Registers formats* in **English, Hindi and Gujarati languages** (with UT Admn. logo inscribed on the cover pages) are herewith being dispatched to for use in printing at the State level.

2. The print-ready formats are being released after getting confirmation of use of AWC Registers in the aforesaid three languages in the UT of Daman and Diu from your Official (Ms Kamala Ben Boria, CDPO) over telephone on 4th February 2013. These formats will replace the existing AWC Registers and MPRs for AWWs/CDPOs. The Gujarati formats were earlier finalized for the Govt. of Gujarat on 19th January 2013 and all translation of the English texts was carried out by the State Govt. Officials.

3. A set of **sample printed registers in English, produced by MWCD** is also enclosed with this letter. Kindly note these sample registers are meant for guiding the print and production quality; contents of the sample registers (*in respect of number of copies per format in each register*) should not to be copied as such. For bulk printing and production at the State level, please use only the print-ready soft versions in the respective languages provided in the enclosed CD along with the attached **print specifications**. It may be noted that in no way these formats should be redesigned or modified.

4. Production of AWC Registers: It is proposed that a quality control committee consisting of senior government officials may be created at the ICDS Directorate to oversee

¹ The *print-ready formats* contained in the attached CDs are organized in sub-folders; each sub-folder containing all formats required for one register. In each sub-folder, the print-ready formats are supplied as separate files for each page, to make it convenient for the printer to use.

the entire process, from drafting the contract to final quality checks before release of the registers to AWCs. It is suggested that the said committee may take the following key actions:

- i. *Estimate the actual requirement of number of registers to be printed keeping in view the Gol-sanctioned and operational AWCs/projects as on date, adding a small contingency as appropriate for replacement and reference purposes at various levels in the UT.*
Note: Registers 2, 3 & 4 need to be replenished every year since they are designed to last one year. All other registers are designed to last at least 5 years. This is detailed in the supplied printing instructions.
- ii. *Before finalizing the contract, ensure that the vendors have fully understood the expected quality and quantity of production, and have examined the sample set of registers before bidding on the tender.*
- iii. *Insist on preparation of dummy registers before the bulk production is initiated and ensure that these are correctly formulated before endorsing full-scale production.*
- iv. *Evolve a detailed plan for delivery of the appropriate number of sets of registers and related materials to each ICDS project. The plan should necessarily include delivery timelines, and plans for safe storage until the registers are distributed along with training of the AWWs, over the next few months. The transport of registers up to the project level may be integrated in the contract/s for printing and production; else, an alternative mechanism will need to be set up. The execution of these plans will require close communication and coordination with district and block level Officials.*
- v. *Ensure batch-wise quality checks by drawing some samples of finished products at the point of production, as well as from products delivered to blocks. This is important to ensure that products received by the AWWs are of the same quality as those approved at the State level.*
- vi. *Do not permit any modification of the State-specific print-ready formats provided in the enclosed CD, at any stage.*

Note: For budgets for printing of the AWC Registers/other reports, kindly refer to the **28 March 2012 Guidelines** as well as Gol's letter dated **28 August 2012** (*copies attached*).

5. Production of Booklets of Monthly Progress Reports (MPRs) and Annual Status Reports (ASRs): These reporting formats have been designed based on the revised AWC Registers and keeping in view the basic data needs at various levels of programme implementation. English and Hindi formats of MPRs and ASRs are attached with this letter. However, as required, these formats may be translated into Gujarati by the ICDS Officials themselves or the same can be obtained from Govt. of Gujarat. It may be noted that no change in these formats is allowed as these are being used for developing a common web-enabled MIS software for all States/UTs, through the National Informatics Centre (NIC). It is suggested that bulk printing of these report formats may also be taken up along with the production of the new AWC registers based on the estimated requirements. It is recommended that at present, sufficient numbers be produced (*as both-sides printed centre-stapled booklets*) to last one year (for instance, AWC MPR @ 12 copies per AWC).

6. User's Manual: English and Hindi versions of the User's Manual for use by the AWWs/Supervisors are attached which will also need to be printed in appropriate numbers along with the set of AWC Registers and MPRs/ASRs. Gujarati version of the User's Manual

may be collected from Govt. of Gujarat, where the translation and designing of English User's Manual in Gujarati is currently ongoing.

7. It is requested that all necessary steps may be taken to expedite the process of printing in a time-bound manner. A detail printing and distribution plan with timeline may be shared with this Ministry at the earliest.

8. ***Identification of SLMTs and preparation of training action plan on Revised MIS:*** Parallel actions on identification of the State-level Master Trainers (SLMTs) (maximum 3) who will be trained by the Central Team along with preparation of an induction training plan on revised MIS for Supervisors and AWWs may be taken up, as per the guidelines of Gol dated **28 August 2012** (*copy attached*). Training action plan on revised MIS may be submitted to Gol at the earliest for approval.

9. Its is also requested to nominate a **State Nodal Officer** for roll-out of revised MIS with an intimation to us, who would be required to coordinate the entire process till its completion. For clarification on any of the above, including print specifications, the undersigned may be contacted.

Yours sincerely,

(Dr. Saroj Kr. Adhikari)

Asstt. Director (M & E)
