Section 1: Population Totals as of April 20____

(Please write with pencil and make changes once a year in April. List SC, ST, others and minorities on different sheets and make separate totals. If there are no minorities among SC and ST, use the "Others" sheet to list only non-minorities; in this case, there will be no duplications, and the total of all four page totals will be the total number of children in the AWC. If there are minorities among SC and ST, make a separate list of minorities in the "Minority" sheet; in this case, all children in the "Minority" list will also have been covered in the other three sheets, and the total of the page totals of the first three sheets (SC, ST, Others) will give the total number of children in the AWC)
